Our Philosophy-Mission Statement

Events are an experience focused around a central narrative. They are a story. Our passion for crafting events is fueled by our love to tell stories. It's our push that drives us to craft unique experiences for each event and client. By understanding who the client is, we are able to capture the central narrative of their story. We focus on every little detail. It's our goal to weave what defines them into an experience that will leave their guests transfixed...an experience they will long remember.

Its all in the Brand..

Whether a client needs a single item, or to plan their entire event, we are able to help with any and all of their needs. Coco is known for always offering the newest and most innovative products and activations. We pride ourselves when a client asks, “Show me something I haven’t seen before”, that we blow them away with a plethora of ideas and activations. Clients are thrilled by our ability to be a “One Stop” source for all their needs. The phrase “You are only as good as your last party”, rings true. Coco Events has a stellar reputation as a leader in the event industry. But it’s not only just the product... it’s the execution, behind the scenes preparation, event management and overall service that goes into making an event great.

Scope of Services- Photo Booths
